

# NEW WAYS OF WORKING EXPLAINED

## HOTDESKING (10 sqm per workpoint)

- An interim solution which may help delay the need to lease additional space
- Sit at any available seat
- Limited variety of settings
- All work activities completed in the one location regardless of task (except face to face meetings)
- Can't always choose my neighbours
- Some standardised technology to enable connectivity

VS

## NEW WAYS OF WORKING (AGILE, ABW, FLEXIBLE) (12.4 – 13 sqm per workpoint)

- A longer term solution that offers significant real estate savings and increased staff productivity and value proposition
- Empowered to select the right space for your activity
- Diversity of settings to suit a range of activity and different workstyles
- Different work activities supported by appropriate settings (focus, collaborative)
- Teams zoned to support connection and collaboration
- Standardised technology to enable seamless connectivity
